

Activity 3: Traits of Political Leaders

1. Consider the list of common traits of political leaders on the previous page. Do you think this is a list that accurately reflects what is required in the political environment in which you are involved? Are there changes you would make to this list?

2. Consider the last trait on the previous page which is listed as, “purpose or focus.” Thinking about this, what calls you to serve as a political leader? What do you think are the most important values for political leaders to uphold?
